Eagle Scout

Emerging Technologies

The minor explores trending creative processes using computers and machines to enhance the design and user experience.

The main sections are 3-D printing, laser cutting, and CNC machining. The minor promotes creative thinking, and allows your ability to expand as a Graphic Designer.

Summary

I am a graphic design student at Myers School of Art. I love creating objects in three dimensional software, and producing them in different mediums such as 3-D printing and CNC machining. I am drawn to create industrial and vivid designs.

Education

The University of Akron 2017–present
Graphic Design/Emerging Technologies
Cuyahoga Community College 2015–17

Employers

Super-Crete

finisher 2019–present

As a finisher you prepared, stylized, and designed concrete. That Includes thinking ahead for placement to be efficient on the jobsite. Finishing Concrete requires patience and an understanding of how a certain finish is preferred.

foreman 2018–present

The foreman leads and maintains progress on jobsites. I also keep everyone organized.

operator 2017–present

laborer 2016–2018

Makerspace

technician 2019

CYO/St.Barnabas

site director, basketball 2017–2018

site director, flag football 2017–present

Walton Hills Auto

auto technician 2013–2018

cashier 2012–2018
